Professional Summary

Developer with 4+ years shipping production web and mobile apps with React, Next.js, TypeScript and Node.js. At Melt Studio I own features end to end on client platforms, from IoT lighting control to cultural-maturity assessment, and I build full products on my own, like Atelier, a white-label operations platform. Available for remote roles.

Professional Experience

Melt Studio Mar 2024 – Present

Full-Stack Developer | Nearshore software consultancy | Remote, Colombia

- **Delivered** 4 web and mobile client projects, including **Amatis** (IoT lighting control) and **Raíz** for Caramelo Escaso (cultural-maturity assessment), on Next.js and React.
- **Top contributor on Raíz**, a **Next.js 15, tRPC, Drizzle/PostgreSQL** Turborepo with 8+ contributors; built its Typeform webhook ingestion, in production for about 2 years.
- **Own features end to end** on Amatis (Express/MySQL, Next.js, Capacitor): scoped integration tokens, refresh-token auth.
- **Automated** releases of 2 Android and 2 iOS apps with **GitLab CI/CD**, from about 8h to 1–2h.
- **Worked on** Redis caching and MQTT device calls for real-time ingestion; designed MySQL schemas and views (AWS RDS writer/reader), resolving collation issues.
- **De-facto tech lead** on client work: sprint coordination, coding standards and code review; daily Claude Code and Cursor use behind tests and CI.

Overnights Technologies Inc Jul 2023 – Dec 2023

Full-Stack Developer | Travel accommodation platform | Remote

- **Built** RESTful APIs (**Express, TypeScript, MongoDB**) and React booking flows in a 15+ developer team.

Selii Dec 2022 – Jul 2023

Frontend Developer (Contract) | Remote

- **Built** a multi-tenant e-commerce storefront with **React, MUI** and an Atomic Design component library in **Storybook**.

Faceself Feb 2022 – Dec 2022

Frontend Developer (Contract) | Remote

- **Built** a cross-platform iOS/Android wellness app with 20+ screens using **React + Ionic + Capacitor**.

CheeseOkay Feb 2022 – Dec 2022

Full-Stack Developer (Contract) | Remote

- **Migrated** legacy code to **Angular 14** and an **Ionic PWA**; built 20+ **Express/Sequelize** API modules.

Projects

Atelier 2026 – Present

White-label SaaS, built solo | atelier.juandawd.dev | First client: Innovations Befine

- **Built solo** on a **Next.js Turborepo** with Drizzle, PostgreSQL and Better Auth: real-time cashier dashboard (SSE), offline PWA queue, three-model payroll engine and RBAC.

Droguería Uno A — Website 2026

Freelance | drogueria-uno-a.com

- **Shipped** the pharmacy's public website with **React 19, Vite, Tailwind CSS v4**, on Vercel.
